INFORMATION DISCLOSURE STATEMENT
FOR CONTINUING APPLICATIONS

Listed on the accompanying form PTO-1449 are several English-language documents.

Applicants respectfully request that such documents be listed as references cited on the issued patent.

The present application relies upon U.S. Patent Application Nos. 10/301,552 (filed November 21, 2002, and now U.S. Patent No. 6,703,964) and 10/810,054 (filed March 16, 2001, and now U.S. Patent No. 6,507,309) for earlier filing dates under 35 U.S.C. § 120. Documents listed on the accompanying form PTO-1449 were disclosed to or cited by the Patent Office in the earlier U.S. applications.

Copies of the documents listed on the accompanying form PTO-1449 that were cited by or submitted to the Patent Office in the earlier application need not be sent to the Patent Office pursuant to 37 C.F.R. § 1.98. However, applicants will furnish the Patent Office with such copies upon request.

Further, copies of United States patents and United States published patent applications do not have to be provided to the Patent Office (37 C.F.R. 1.98(a)(2)(ii)). Copies of unpublished U.S. applications do not have to be provided, as long as the application is available on PAIR, as this requirement of 37 C.F.R. § 1.98(a)(2)(iii) has been waived by the United States Patent and Trademark Office pursuant to the Official Gazette Notice on October 19, 2004 (1287 OG 163). Applicants will provide copies of such patents or applications upon request.

Applicants filed this Information Disclosure Statement ("IDS") before the mailing date of a first Office action on the merits. As a result, no fee should be required to file this IDS. However, if the Patent Office determines that a fee is required for Applicants to file this IDS, please charge any such fees, or credit overpayment, to Deposit Account No. 02-4550. A **duplicate** copy of this Information Disclosure Statement is enclosed.

The filing of this Information Disclosure Statement shall not be construed to be an admission that the information cited in the statement is, or is considered to be, prior art or otherwise material to patentability as defined in 37 C.F.R. §1.56.

Respectfully submitted,
